

CUTTING THROUGH THE B2C CONGESTION

The private hire and taxi industry has undergone a monumental shake-up in recent years.

New entrants to the market make it an increasingly difficult decision for passengers to make a choice.

Fortunately, for business making a choice is simpler, as fewer companies offer a fully managed taxi service.

Here we look at the **top 5 reasons** why a managed taxi service is best for your business.

NATIONWIDE COVERAGE

Several consumer focused taxi companies have London-centric coverage, with very few operating outside of the capital. Businesses with offices outside of city centres unfortunately miss out...

Thanks to our supplier network, Cabfind.com can provide a taxi anywhere in the UK within 20 minutes.

CONTROL EXPENDITURE

Beyond traditional ad-hoc taxi spend, an optimised travel expense system empowers your business travellers to make bookings within agreed policies. To help keep track of your travel budgets, a managed taxi service from Cabfind.com provides insightful Management Information and analytical data for a deep understanding of your vehicle requirements, key routes, CO² emissions and top users allowing you to pinpoint areas for improvement.

Supported by a UK call centre available 24/7 x 365, your key account manager will work with you to drive efficiency through your travel expenditure, tailoring rules to your specification and meet your objectives.

ALLOCATED COST CENTRES

Most consumer-focused taxi apps provide electronic receipts on an individual basis, on first reflection a nice service but still as inconvenient as a paper receipt as the passenger will need to file their expense claim.

Cabfind.com's managed taxi service allows passengers to allocate to specific cost centres, meaning a low-touch approach to administration and transparency over department budgets

EXTENSIVE VEHICLE OPTIONS

Cabfind.com continuously add vehicle suppliers to our network, focused on providing the widest range of choice of vehicles across the UK.

Whether you require a standard car, executive class, minibus or MPV, Cabfind.com have the strength and flexibility of network to meet your requirements anywhere in the UK.

QUALITY, SAFETY & DUTY OF CARE

We know the safety and security of employees is at the top of your agenda.

We hold our customer's safety in the same high regard. All our approved suppliers go through a rigorous selection process, so with Cabfind.com you're always in safe hands.

Our network of professional drivers transport key staff 24/7/365 in all conditions to their destinations safely and on time.
